

## Silk Rose Petals – Color Key

Most of our samples are stamped with a number for matching the petal to the name. When you find a petal you like, just look up the number on the chart below to find it's color name. All colors highlighted in **red** are available in value packs of 1000 petals.

Colors may vary slightly from the samples due to different manufacturing dye lots.

Some petals are too dark to stamp, so they have a hole punch in them. The list of those petals is below:

If your petal is...	and the hole punch is...	then the name is:
dark purple	█	Plum
dark purple	★	Concord
dark purple	♥	Eggplant
dark purple	●	Amethyst
dark blue	█	Blue
dark blue	★	Blueberry
dark blue	♥	Navy Blue
dark blue	●	Denim
dark red	♥	Crimson

Some colors do not have a stamp nor a hole punch, but they should be obvious, such as Black, Gold, Silver, and Iridescent. By the way, when you receive your order, the petals are not stamped!
